Education

University of California, San Diego — **La Jolla, CA**
Master's of Computer Science — *Sept. 2026 – June 2028*

University of California, Santa Cruz — **Santa Cruz, CA**
Bachelor of Science in Computer Science: Game Design, Summa Cum Laude — *Sept. 2024 – June 2026*

Relevant Coursework

- Python Prog.
- C/C++ Prog.
- Fullstack Development
- Discrete Mathematics
- Computer Systems
- Data Structures and Alg.
- Game Design/Dev
- UI/UX Design
- Comp. Architecture
- Software Engineering
- Linear Algebra
- Probability and Statistics

Technical Skills

Languages: C/C++, Python, C#, HTML, CSS/SCSS, Typescript, Javascript, RISC-V Assembly
Game Design Engines: Unity, Godot, Unreal, Phaser, Twine, GDevelop
Developer Tools: Git, VSCode, Linux, Angular, Firebase, Figma, IntelliJ, PyCharm, Jupyter Notebooks, Node.js

Experience

Tech4Good — **March 2025 – June 2026**
Full Stack Web Developer + Team Lead — *University of California, Santa Cruz*

- Worked on full stack development leading a large team on web applications using Angular and Firebase
- A variety of experience in using HTML, SCSS, Typescript, and Figma to create components for web pages, style layouts, and produce a pleasing and easy to interact with UI
- Conducting research in social computing and HCI to create systems that foster growth in education

Projects

Bubble Mage — **Jan. 2026 - Present**

- Developing a game as part of a 3-person team, managing its Steam presence by creating the Coming Soon page and coordinating the game's publishing setup
- Responsible for end-to-end 3D art pipeline, independently learning Blender to create game assets and integrate them into Unity with custom animations, shaders, and VFX
- Implemented gameplay and UI systems in Unity/C

Gratitude — **Jan. 2026 - June 2026**

- Led a 4-person team, delegating tasks, coordinating development, and managing project workflow to meet milestones
- Initiated and structured main project repository, establishing a Firebase backend and Github project board to aid development
- Developed an AI-powered backend prompter that categorizes user inputs and matches users with others based on similar responses

Other Interests

Languages

- Fluent in English, Proficient in Dutch and French

Classical Music

- 10+ years of playing the harp
